1. The following is an examiner's statement of reasons for allowance:

Under applicant's REMARKS accompanying the Amendment dated November 2, 2005, it is argued that the WO'353 reference to Coveney fails to disclose the specific first reactants and the specific second reactants now incorporated into claims 8-10. Such argument is not concurred in since the reference to Coveney (note page 4, lines 1-14) clearly discloses the use of either an aldehyde or a ketone as the first reactant. It is further noted, however, that Coveney does not appear to disclose the specific second reactants, i.e., the modified amines, such as the hexamethylene diamine species, recited in claims 8-10. In this regard, it is also noted that Coveney does not explicitly call for the creation of an osmotic membrane on the shale formation which results from the inter-reaction of the said specific first and second reactants.

It is agreed that applicant is correct in asserting that the pending application does not claim foreign priority, except to the provisional applications under 35 USC 119(e). Hence, the indication of a foreign priority claim on the form PTO-326 accompanying the previous Office action was erroneous, as noted by applicant.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to George Suchfield whose telephone number is 571-272-7036. The examiner can normally be reached on M-F (6:30 - 3:00).
